SRE 3130 C HEATER

Product data sheet

Product range	Portable heaters
Product line	Laser
Brand name	Qlima
Model name	SRE 3130 C
EAN code (Black – white)	8713508776545
EAN code (Black – red)	8713508776934

Technical specifications

Burner type		Electronic Injection Burning System (BI)
Capacity	kW	1.5 - 3.0
Suitable space	m^2	20 - 48
	m^3	48 - 120
Fuel consumption	ltr/hr	0.156 - 0.313
	g/hr	125 - 250
Tank capacity	ltr	5.8
Autonomy	hr	18.5 - 37
Mains	V / Hz	230 / 50
Power consumption start	W	660
Power consumption burning	W	22
Noise level (low–high)	dB(A)	28 - 35
Dimensions (w x d x h) *	mm	400 x 307 x 455
Weight	kg	10.6
Guarantee	years	4

* including base plate

Features

Air quality control system CO$_2$-sensor: This heater is equipped with a CO$_2$-sensor. The heater will be switched off when the room is not ventilated sufficiently.

High-tech burner: This heater is equipped with a burner system that heats up extremely quick and very gradual. This gives a more comfortable heating sensation.

Fuzzy logic: This heater is equipped with a self-regulating temperature control system. The heating mode can be set according to the requirements.

Semi-automatic operation: This heater is equipped with a 24-hour programmable timer and integrated thermostatic control to maintain the desired room temperature.

Wickless design: Provides clean and economical heating without wick maintenance or replacement.

Information display: The digital displays helps to keep track of all the important heater functions.

Safety devices: This heater is equipped with a combustion quality sensor, an over-heat protector, a tip-over switch, a safe top and a burner thermistor for safe heating.

Safety system: This heater is fitted with a safety system that automatically switches off the heater after approximately 48 hours of continuous operation. Use the safety stop to switch off the heater inmediately.

Smart Save mode: The 'SAVE' function allows you to keep the set temperature in the room. This saves on the energy consumption.

Childproof lock: When this button is pressed, the operation of buttons will be blocked, except the on/off button.

Touch panel display: The state of the art display combines contemporary design with maximum convenience.

Automatic airflow control: The speed of the built-in fan is self-regulatory, depending on the burning mode of the heater.

Large autonomie: The large 5.8 l fuel tank is good for up to 37h of pleasant heat.

Additional heat output: All consumed electric energy is emitted in the room to be heated.

Quiet operation: When heating the room, the device produces only a limited amount of sound. Also in the start up phase, the heater produces very little sound.

Recyclability: Over 90% of the heater can be recycled.
